Here's how your customers are going to know about Workmate™:

Television

Hard-hitting 60 and 30-second commercials dramatically portray the unique capabilities of the Black & Decker Workmate. In this manly outdoors scene, your customers will see the range of versatility, the portability and the storability that the Workmate offers on every project.

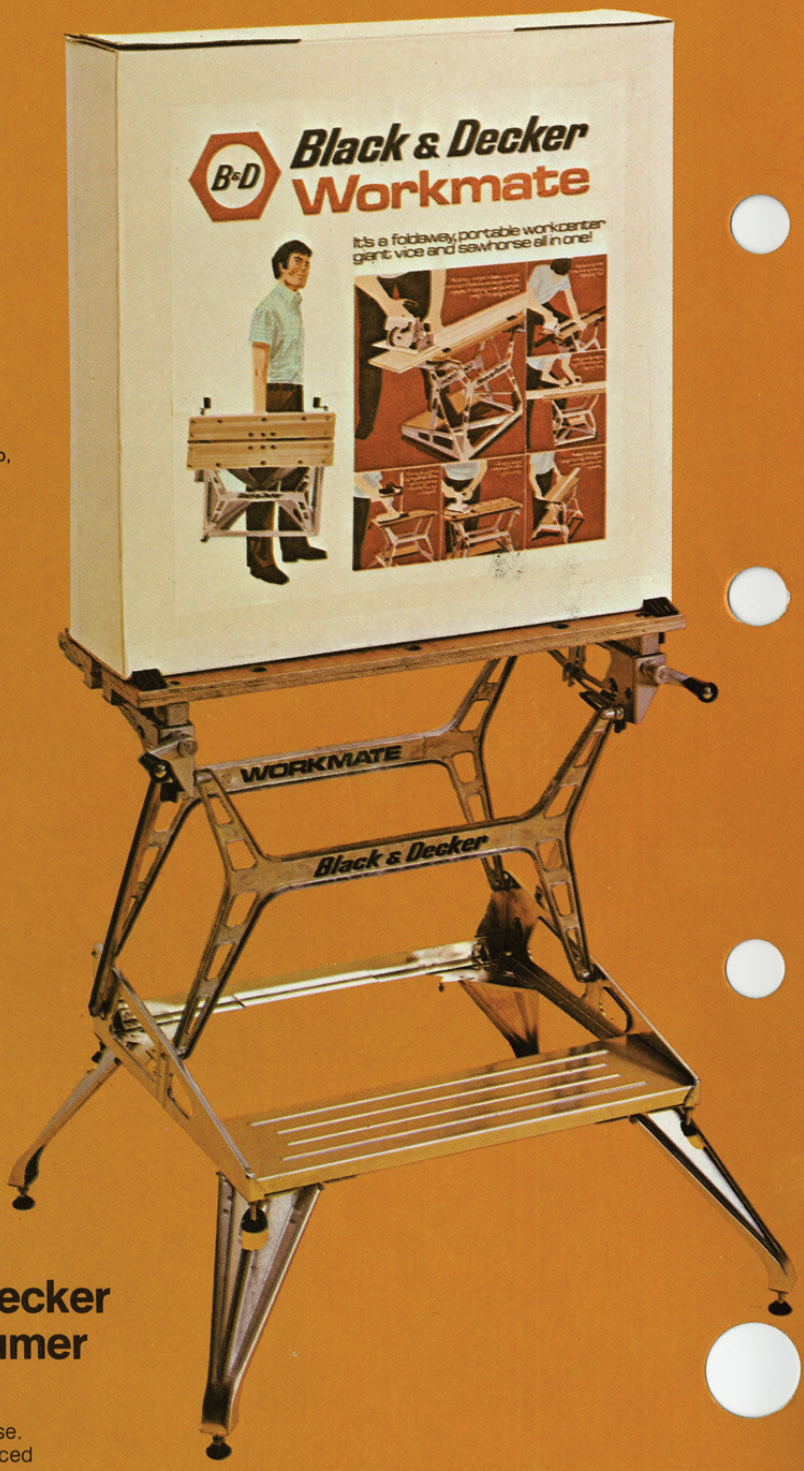
Now Black & Decker's come along
With a handyman's helper that's mighty strong.
It's small and light and pulls its own weight,
It's the brand new incredible WORKMATE.

It's more than a bench, more than a vise
It's got both things working and that's kind of nice,
'Cause when you're doing a job that should take two,
The WORKMATE does the holding for you.

Two vise clamps and a sturdy metal base,
It'll hold just about anything around your place.
And if you're working on something shaped kind of strange,
The WORKMATE will give you extra-wide range.

You can pound on it, saw on it, place a board on it,
Cut a pipe on it, sand on it, drill a hole on it,
Drive a screw on it...and a whole lot more.

Yeah, it's more than a bench, more than a vise,
It's got both things working and that's kind of nice,
'Cause when your alone and there's work to do,
The WORKMATE'll help you see it through.



Point-of-Purchase

The Workmate comes packaged with a full-color, full-size label featuring many of the photographs from this booklet. Just set up the Workmate, close the box and hold the box upright on the Workmate with the vise pegs.
Presto! Here's an interesting, eye-catching display for any area in the store ready for demonstrating, with attractive graphics that tell the customer the Workmate story.
